

# WorkShiftly

Increase Your Productivity with Better Time-Management Practices

# What is WorkShiftly?

Manage your teams' workload and output remotely with WorkShiftly, an efficient and affordable employee monitoring solution. Implement best time management practices, allocate resources effectively, and supercharge your business productivity.

With WorkShiftly, you can track employee progress allotted tasks and review productivity wherever or whenever they work. The tool also generates reports for business analytics.

Knowing what your employees do helps your organization keep its productivity and integrity intact.

**WorkShiftly enables **Accountability** and **Assurance**.**

## Who We Are

**WorkShiftly** is developed by Thinkcube Connect-Emageia, which builds cutting-edge web, desktop & mobile applications and provides cloud-hosted solutions for clients across the globe. We provide unparalleled quality, accountability and transparent pricing. Our satisfied global clientele includes the Sri Lankan government, Accario, Bank of Ceylon, HealthRecon Connect, and CloudMarc.

FBC Asia Pacific is a development partner and an authorized distributor of WorkShiftly. FBC Asia Pacific is a rapidly growing Business Process Outsourcing with delivery centers in the Philippines and Sri Lanka. The group provides rapid turnaround times, high-quality service, and optimum pricing.

WorkShiftly is backed by Ekta Global, a Singapore-based accelerator of superior technology and business process outsourcing companies.

## Why Use WorkShiftly?

Our clients increasingly rely on 'work-from-home' employees to deliver. Managing employee productivity without compromising on data security is one of their biggest challenges. Built for ease-of-use, WorkShiftly has a non-demanding onboarding process and a user-friendly interface.

### WorkShiftly can:

- Increase workforce efficiency and effectiveness
- Manage and allocate resources
- Maintain accurate records such as attendance reports
- Utilize historical data for future projections and management
- Estimate and evaluate task-wise time allocation

# Enhanced Functionality

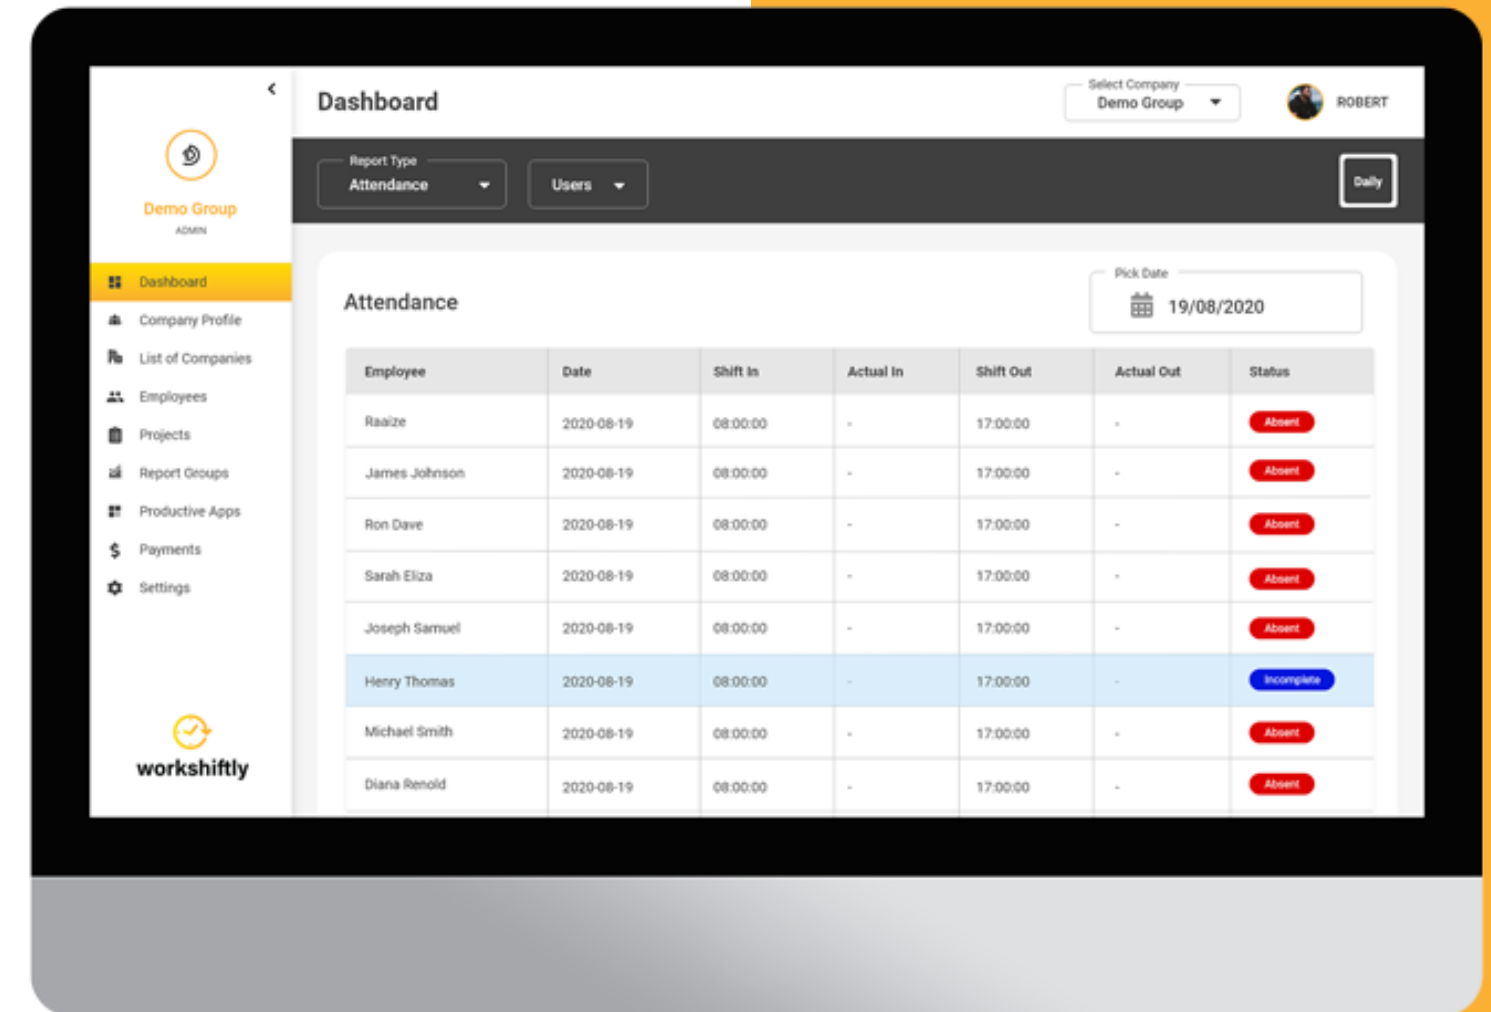

-  Monitor and track employee activities
-  Capture screenshots at random intervals
-  Define applications in terms of productivity per employee
-  Define work schedules (Static/Dynamic)
-  Dashboard and reports
-  Allows multiple company profiles
-  Configure each company's settings
-  Manage employee profiles
-  Create report groups
-  Create and define breaks
-  Company calendar
-  Subscription and billing history
-  Supports different time-zones
-  Store screenshots for future review
-  Employer master bulk upload

## Unique Features

- Input an estimated time for your all your tasks
- Define breaks and identify break reasons
- At the completion of defined breaks, monitoring resumes automatically

## Additional Features

- Offline time-tracking ability
- Prevention of data loss due to sudden interruptions such as hibernation and restart
- Ability to store screenshots on the cloud or on-premise servers, based on customer preference.

# Client Endorsements

“WorkShiftly is a user-friendly service that helps us evaluate the performance of our fast-growing world class call-centre operation.”

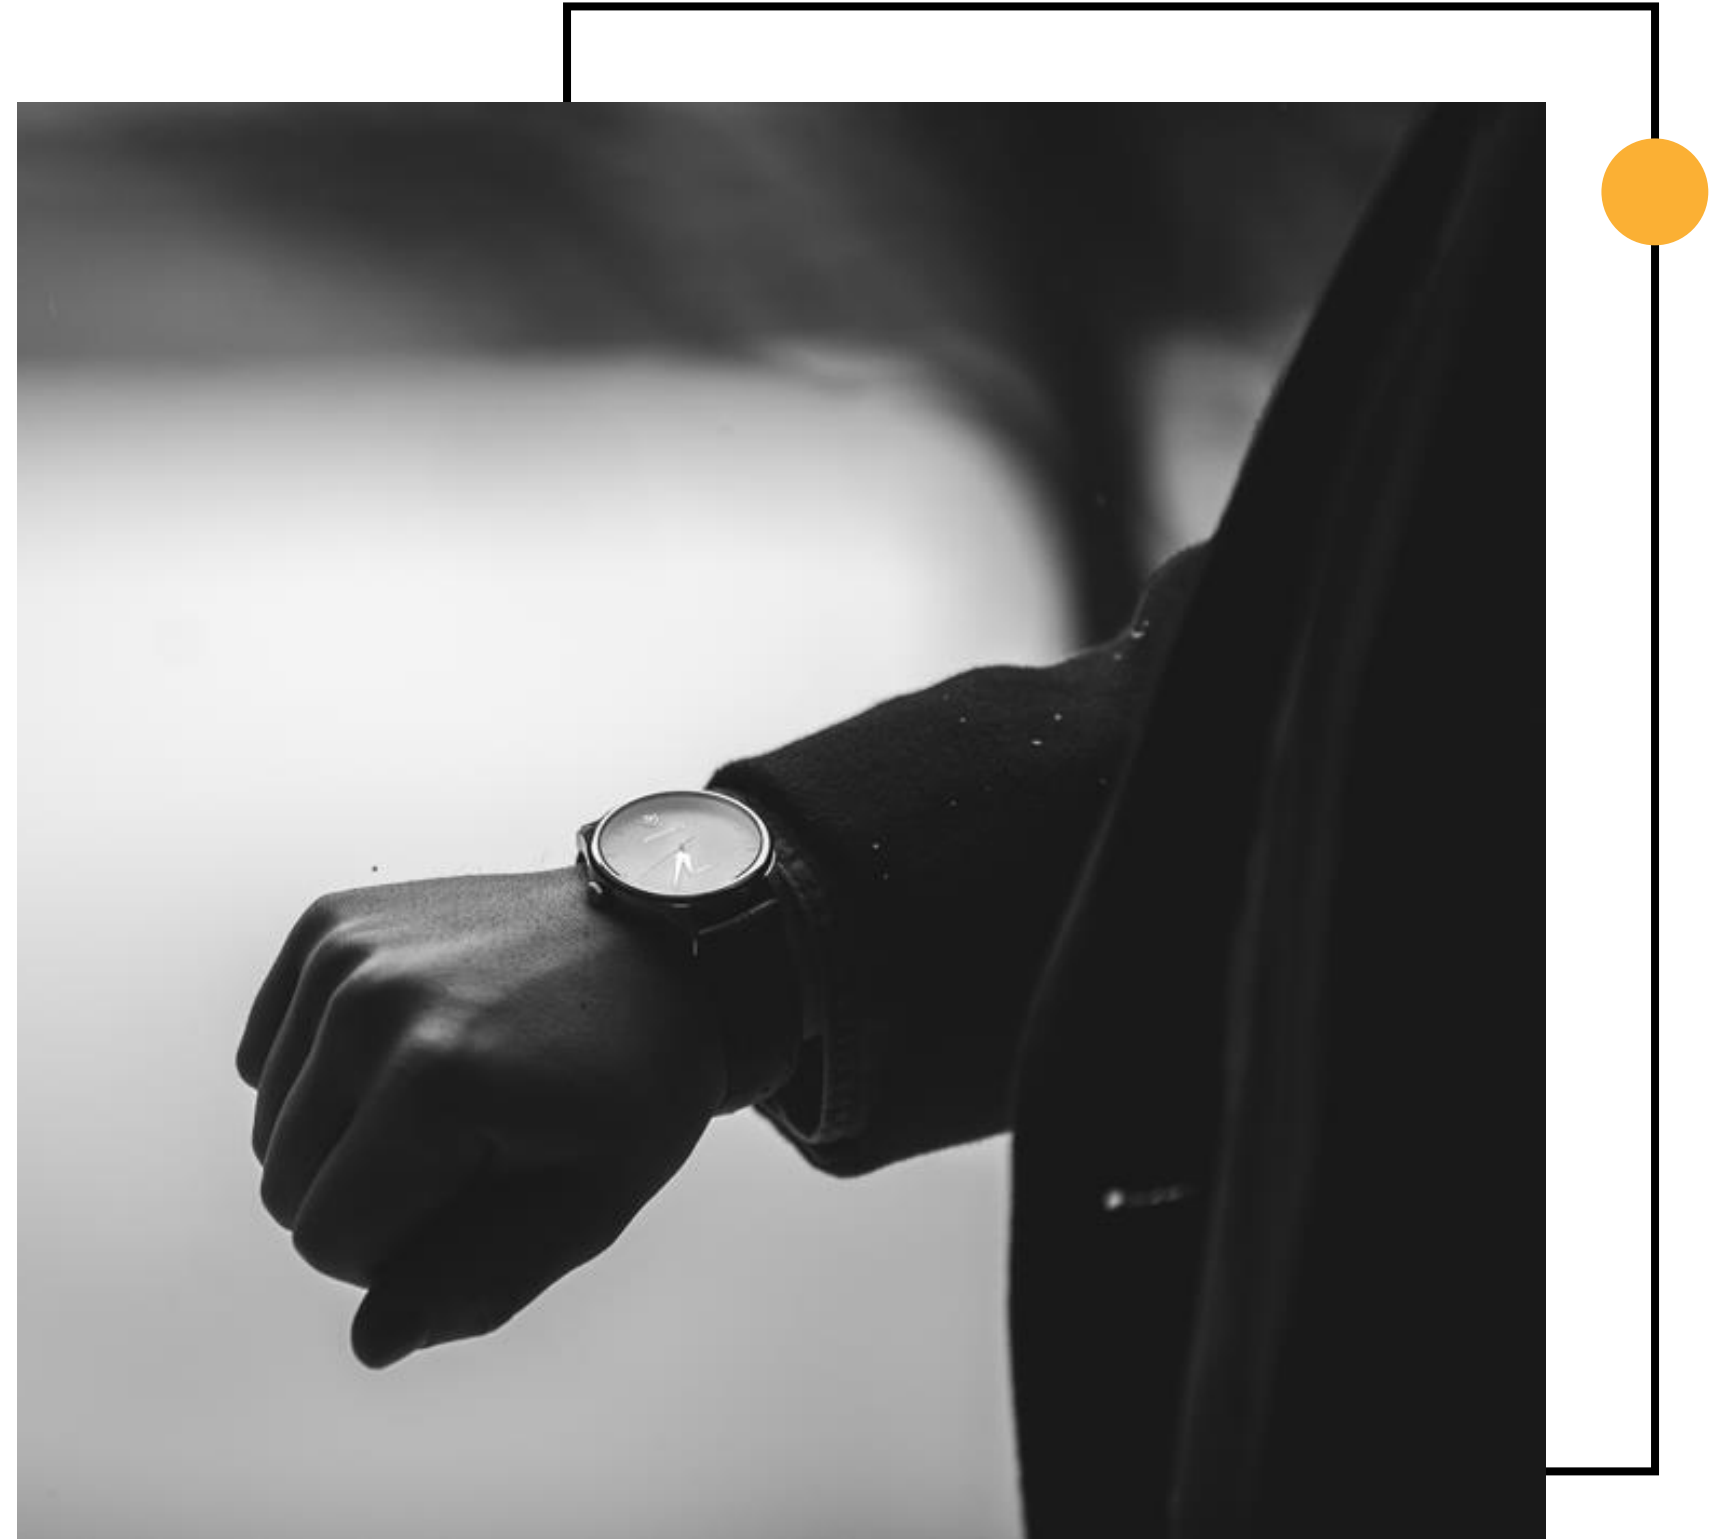

“WorkShiftly helps me see whether my remote team is actually working during business hours.”

“My team is working remotely during office hours. WorkShiftly captures screenshots, enabling me to monitor what they have done during work hours.”
